

English Homework: Session 2 with Ahmet

Student: Ahmet (Gürkan)
Date: March 3, 2026
Estimated Time: 1 hour
Next Lesson: Thursday

Hi Ahmet,

What a session! You did **fantastic** work today — not only did you review Homework 1 brilliantly, but you explained pavement engineering with such depth and confidence. Meeting Taner and speaking naturally with him showed how far your English has already come. Let's build on that momentum with this homework!

1 Part 1: Grammar Corrections (20 minutes)

In today's class, we corrected some grammar mistakes together. Let's practise using the correct forms.

Instructions: For each sentence, (a) identify the mistake, (b) write the corrected version, and (c) write one new original sentence using the correct grammar.

Grammar Point 1: Active vs Passive — 'got injured'

✗ **Your sentence:** "My left knee was got injured in 2020."

✓ **Corrected:** "My left knee **got injured** in 2020." OR "My left knee **was injured** in 2020."

💡 *Remember: Don't combine 'was' + 'got'. Use one or the other.*

Your new sentence: _____

Grammar Point 2: 'They got me to do something' vs 'They arranged for me'

✗ **Your sentence:** "They arrange for me to solve a complex problem."

✓ **Better options:**

- "They **got me to solve** a complex problem."
- "They **assigned me** a complex problem to solve."
- "They **entrusted me with** solving a complex problem."
- "They **put me in charge of** solving a complex problem."

Write a sentence using one of these structures: _____

Grammar Point 3: Adverbs — 'comfortably' (not 'comfortable')

✗ **Error:** "...too high to drive in comfortable."

✓ **Correct:** "...too high to drive **comfortably**."

💡 After a verb (drive, run, walk, work...) → use an adverb (-ly). Not an adjective.

Write a
sentence
using
'comfortably'
:

Grammar Point 4: Noun vs Verb — 'project' (PRO-ject) vs 'project' (pro-JECT)

Remember: When 'project' is a noun (a plan or task), stress the first syllable: **PRO-ject**. When it is a verb (to estimate or show), stress the second syllable: **pro-JECT**.

In your writing, use the correct form:

- KGM is responsible for **projecting**, constructing, and maintaining roads. (verb)
- KGM is responsible for the **projection**, construction, and maintenance of roads. (noun)

Write one
sentence
about KGM
using the
noun or
verb form of
'project':

2 Part 2: Opinion Writing — Government Work vs. Running Your Own Business (20 minutes)

In today's session, you and Taner had a great discussion about working for the government versus running your own company. You shared your own experience of retiring and starting Geopave with your wife. Now let's practise writing your opinions!

Instructions: Write two short paragraphs (3–4 sentences each). Use the prompts below.

Paragraph 1: What are the advantages of working for yourself? Use your own experience.

Paragraph 2: What advice would you give to someone like Taner who wants to start their own company one day?

Try to use phrases like: In my opinion... / From my experience... / I would advise... / One of the challenges is... / However, the benefit is...

Paragraph 1:

Paragraph 2:

3 Part 3: Speaking Preparation — Sharing Your Opinions (20 minutes)

In today's session, you discussed your career, your city, Turkey's industries, and the value of sharing knowledge. In the next class, we will practise **talking about yourself and your opinions** on these topics. Answer the questions below to prepare!

Instructions: Answer each question in 3–5 sentences. Write naturally, as if you are speaking to someone you just met. Don't worry about being perfect; focus on expressing your ideas clearly.

Question 1: Turkey has become strong in areas like shipbuilding and defence. Why do you think Turkey has developed well in these industries?

Question 2: You mentioned that getting good data from the Turkish government is very difficult. Why do you think this is? What are the consequences for engineers and researchers?

Question 3: Do you agree that time is more important than money? Give an example from your own work or life to support your answer.

Question 4: You believe that sharing information is good for both sides. Can you think of a time when sharing your knowledge helped you learn something new? Tell the story in a few sentences.

4 Bonus Vocabulary: 20 New Words from Today's Session

These words came up during our conversation today. Try to use **3–4 of them** in your homework answers above!

#	Word / Phrase	Example from class	Synonyms
