Estimated Time: 1 hour
Next Lesson: Tuesday

Introduction

Hi Ahmet,

This was a **fantastic** first lesson back! It was great to hear about your life. Your English has improved so much—your fluency, confidence, and vocabulary were all on point. Let's keep that momentum going with this homework, which is based on the things we talked about.

1 Part 1: Vocabulary in Context (20 minutes)

In our conversation, we used some great words and phrases. Let's practice them.

Instructions: Write one original sentence for each of the following words or phrases from our talk. The sentences should be about your work, your hobbies (like your Lego project), or your daily life (like cooking or fasting during Ramadan).

Vocabulary Words

1. **To manage** (as in "I have to manage all things about my life")

2. **To be into (something)** (as in "I am not into music")

3. **To be on fire** (idiom, as in “you were on fire today”)

4. **A complex problem** (as in “a really complex problem”)

5. **To launch / To attack** (as in “US and Israel launched to attack Iran”)

2 Part 2: Summarize Your Week (20 minutes)

I'd like you to practice writing about your week.

Instructions: Write a short paragraph (5-7 sentences) summarizing your past week. Try to include the following details:

- How you are managing the house .
- What you ate for iftar or suhur this week (especially that soup you learned to cook!).
- Your work on the new project or your other consultancy work.
- Your new hobby—the Lego/puzzle lamp you showed me (it looked amazing!).

3 Part 3: Prepare for Our Next Class (20 minutes)

In our next class, I want to dive deeper into the **pavement project** we discussed. You were so knowledgeable and passionate when talking about this—it was great to see!

Instructions: Please answer the following questions in a few sentences each. This will help you prepare to talk about the project more fluently. Don't worry about perfect grammar—just focus on expressing your ideas clearly.

1. You told me about a new project. Can you explain it again in a few sentences? What is the goal of the project?

2. We talked about “surface dressing” (which you called “**Sathi Kaplama**” in Turkish). Can you explain what this type of road surface is and why it is used so much in Turkey? Imagine you are explaining it to someone who knows nothing about roads—like me!

3. You mentioned that Turkey needs a pavement management system for these surface dressing roads. Why do you think it's important? What could a good system help the govern-

ment or engineers to do?
