

DAY 4 – PHRASAL VERBS

B2 Level – Fluency, Vocabulary Flow & Construction Business

Ilhan's English Journey

Introduction

Phrasal verbs are **verb + preposition/adverb** combinations that act like a single verb with a new meaning. Native speakers use them **all the time**, especially in business meetings, emails, and on construction sites. Mastering them will make you sound **natural, confident, and fluent**.

Today's 10 Key Phrasal Verbs (Construction & Business Theme)

Phrasal Verb	Meaning	Example (Construction Context)
1. Carry out	Perform / execute	We need to carry out a safety inspection before starting.
2. Set up	Establish / install	They set up the scaffolding in just two hours.
3. Take over	Assume control	Ilhan took over the company from his father in 2020.
4. Put off	Postpone	The meeting was put off due to bad weather.
5. Speed up	Make faster	We must speed up the concrete pouring process.
6. Run out of	Finish supply	We've run out of cement – order more!
7. Look into	Investigate	I'll look into why the crane is delayed.
8. Break down	Stop working / fail	The excavator broke down again this morning.
9. Come up with	Invent / suggest	Can you come up with a cheaper design solution?
10. Sort out	Resolve / organize	Let me sort out the payment issue with the supplier.

Grammar Tip: Separable vs Inseparable

- **Separable** → Object can go **between** verb and particle:
“We **set** the meeting **up**.” or “We **set up** the meeting.”
- **Inseparable** → Object **must** follow particle:
“We **ran out of** cement.” “ran cement out of”

Your 10 verbs:

Separable: set up, put off, speed up, come up with, sort out

Inseparable: carry out, take over, run out of, look into, break down

Pronunciation & Flow Drill

- Repeat after me (record yourself!):
 1. **Carry out** – /kæri at/
 2. **Set up** – /st p/
 3. **Take over** – /tek ovr/
- **Flow Tip:** Stress the **particle** in speech:
“We need to **SPEED it UP!**” (not “speed IT up”)

Exercises (Do Now!)

A. Fill in the Gap (Use correct form)

1. The architect _____ (come up with) a brilliant eco-friendly design.
2. We can't start until we _____ (sort out) the permit issue.
3. The old manager retired, so I _____ (take over) last month.
4. Don't _____ (put off) the safety training – it's urgent!
5. The generator _____ (break down) during the storm.

B. Rewrite with Phrasal Verb

1. *We will investigate the delay.* → We will _____ the delay.
2. *They installed the new software yesterday.* → They _____ yesterday.
3. *We have no more steel beams.* → We've _____ steel beams.

C. Speaking Fluency (Record 1-minute answer)

“Describe a problem on your construction site and how you solved it using 3 phrasal verbs.”

Homework (Due SEVEN DAYS)

1. **Write 5 sentences** about your company using **5 different phrasal verbs** from today.
2. **Record yourself** reading the 10 examples aloud (use Voice Memos).
3. **Find 3 phrasal verbs** in a real English construction article/video (send link + verbs).

4. **Quiz Prep:** Be ready to explain “**carry out**” vs “**sort out**” in your own words.

Tomorrow’s Lesson

DAY 5 – CONDITIONALS (Real & Unreal)

We’ll talk about **hypothetical projects, risks, and future plans** fluently.

You’re doing amazing, Ilhan! Keep pushing – fluency is coming!

— *Ahsan*

Send your homework IN 7 days.

Answer Key (Exercise A)
