

English Lesson

Day 3

Describing Changes and Processes

For Ilhan - B1 Level

Your Construction & Culture Journey

Ahsan

English Teacher

October 27, 2025

Welcome Ilhan!

Dear Ilhan,

I'm Ahsan, your dedicated English teacher. We're building your fluency step by step so you can speak confidently in meetings, chat with international clients about construction projects, or discuss fascinating world cultures like the vibrant markets of Istanbul or innovative ideas from Silicon Valley.

Your B1 level is strong—you understand main ideas and handle everyday conversations. **Today's focus:** *describing changes and processes*. Perfect for explaining building projects from blueprint to completion, or cultural transformations like Roman engineering in modern bridges.

We'll cover grammar, vocabulary, and practice. Let's make this fun and practical!

Today's Topic: Describing Changes and Processes

1. Key Grammar: Tenses for Changes

- **Past Simple:** Finished changes.

Example: "The company **built** the bridge last year."

- **Present Perfect:** Changes up to now.

Example: "We **have just completed** the foundation."

Structure: Subject + have/has + past participle (built, changed, improved).

Why? "Our team **has transformed** an old warehouse into a modern office—it took six months!"

2. Useful Vocabulary (10 Key Words)

Word	Meaning	Example (Construction/Culture)
Transform	Change completely	Architect transformed design to fit local culture
Evolve	Develop gradually	Techniques have evolved from Roman arches
Blueprint	Detailed plan	Started with blueprint and followed steps
Foundation	Base of building	Foundation laid first, then walls rose
Renovate	Repair & improve	Renovated mosque to preserve heritage
Phase	Stage in process	Phase 1: digging; Phase 2: roof
Innovation	New idea	Innovation from Japanese designs
Heritage	Cultural history	Preserved Ottoman heritage
Assemble	Put together	Workers assembled steel frame
Milestone	Important achievement	Halfway milestone marked change

Practice: Say aloud—stress: trans-**FORM**, e-**VOLVE**.

3. Linking Words for Fluent Flow

Steps: First/Then/After that
"First, we surveyed. Then, we dug."

Timing: Before/While/During
"While walls rose, we planned."

Cause-Effect: As a result/Therefore
“Design changed; **as a result**, we delayed.”

Tip: Pause after linking words = time to think!

Quick Practice Exercises

Exercise 1: Fill in the Blanks

Complete with **past simple** or **present perfect**:

1. Our team _____ (build) three bridges this year.
2. Last month, city _____ (approve) blueprint.
3. Project _____ (evolve) since 2023.
4. We _____ (renovate) old factory.
5. Workers _____ (assemble) final phase.

Exercise 2: Vocabulary Matching

Match: a. Transform b. Milestone c. Heritage d. Phase e. Innovation

1. New creative idea
2. Important achievement
3. Change completely
4. Cultural history
5. One stage in process

Exercise 3: Speaking (1 Minute)

Task: “How does your company turn idea into building?”

Use: 3 vocab + 2 tenses + 2 linking words.

Exercise 4: Writing Paragraph

Topic: “How has technology transformed Turkish construction?” (5-7 sentences)

Answers: 1. has built, 2. approved, 3. has evolved, 4. have renovated, 5. assembled
2. e-1, a-3, b-2, c-4, d-5

Homework for Day 4

1. **Speaking:** 2-min voice note on company milestone (4+ vocab)
2. **Reading:** “Roman Engineering in Modern Bridges” (3 new words)
3. **Fluency:** TED Talk “Evolution of Cities” (shadow 2-3 sentences)
4. **Review:** Redo Exercise 3 with personal details

Ilhan, you're progressing fast! This will make you sound professional globally. Questions? Reply!
